EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In line 7 of the Abstract, the word "means" has been replaced with the phrase —a mechanism—.

2. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a two-handled shovel wherein each handle terminates in a rotatable hand grip. One of the handles is pivotally mounted to the rear surface of the shovel blade while the other handle is mounted in a shaft sleeve on the rear of the blade. The pivotally mounted handle comprises a pair of substantially parallel legs extending between a pivot bracket and a rotatable hand grip. The closest prior art, Vaslas (4,103,954) and Simdom (5,871,246), shows auxiliary handles pivotally mounted to the shovel blade, but neither of these references shows the pivotal handle having substantially parallel leg portions mounted to a bracket located between the top edge of the blade and the shaft insert sleeve as is specifically recited in independent claim 1 of the instant application. Further, neither of these references shows rotatable hand grips on both handle of their respective shovel assemblies as is also called for in claim 1.

Art Unit: 3652

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
